

# The Basics of Rapid HIV Testing

Wednesday, February 3, 2010

12:00 pm - 1:30 pm Pacific Time

Audio Conference

## About This Audio Conference

For agencies that have been providing conventional HIV testing, adding the option of rapid testing can be exciting and challenging. There are many issues to address before offering this service, including financial considerations, staff training, handling reactive results, and clinic flow. This audio conference will walk through the issues to consider when integrating rapid HIV testing into your current menu of services.

## As a result of this audio conference, listeners will be able to:

- Explain how rapid HIV testing is different and why it is important
- Identify issues to consider when choosing a rapid HIV test
- Identify key components to include in a rapid positive test result disclosure session
- Identify 2-3 issues to consider when implementing rapid HIV testing in your clinic

## Audience

Family planning and reproductive health care staff.

## Speakers

**Amanda Newstetter, MSW** is a Project Director at the Center for Health Training in Oakland, CA. She has worked in the field of HIV since the beginning of the epidemic and coordinated HIV counseling and testing services for Planned Parenthood for 7 years. For the last 16 years, she has conducted HIV and other training throughout the western region.

**Daniela E. Torres** is the Director of HIV Programs & Public Policy for the Alameda County Public Health Department's Office of AIDS Administration in Oakland, CA. Daniela began her work in the HIV field in 1994 and spent several years as a training manager for Planned Parenthood. She now continues her work as a training consultant for various agencies.
